Dear Sir/Madam,

30 APR 2019

It is important to provide the students with adequate industry experience in order to enhance their skill level, competence and employability. Internships play an important role in improving the employability of a graduate. Unemployed who are unable to find suitable jobs can apply for internships with pre-placement offers matching their requirements. After the internship, the graduates have a chance to get a job in the same company. Internships are now getting attention even from those with college degrees, and not for just undergraduate students for whom internships are compulsory.

To address this issue, AICTE has signed Memorandum of Understanding (MoU) with a host of internship companies. A list of these MoU is enclosed. The universities may utilize this information to provide the students an opportunity to undergo internships. This may be brought to the notice of your affiliated colleges/institutes also.

With kind regards,

Yours sincerely,

(Rajnish Jain)
